

# James Wilson, MD

Founder / CEO

Dr. James Wilson is a board-certified, practicing pediatrician who specializes in operational health security intelligence, with a focus on the anticipation, detection, and warning of infectious disease crises. He has led the creation of several systems used for the anticipation and detection of infectious disease crises and disasters.

Dr. Wilson was the first operations chief of the Department of Homeland Security's National Biosurveillance Integration Center. He led the private intelligence teams that provided tracking of H5N1 avian influenza as it spread from Asia to Europe and Africa, detection of vaccine drifted H3N2 influenza in 2007, warning of the 2009 H1N1 influenza pandemic, discovery of the United Nations as the source of the 2010 cholera disaster in Haiti, and warning of the current COVID-19 pandemic with ongoing emergency response support.

Dr. Wilson has also several investigations and live warning of alleged and confirmed laboratory accidents and biological weapon deployments. He was Guest Editor of the recent Special Issue on Health Security Intelligence in Intelligence and National Security Journal and was Co-Founder of the Global Health Security Alliance. M2 Medical Intelligence, Inc. has 25 years of health security warning intelligence experience.
